

PLEASE DO NOT take our K-LOVE station away!!!!!! We have been listeners and supporters of K-LOVE for over 5 years and it is the ONLY radio station we listen to. If you were a listener of this radio station, you would understand our desperate plea. There is no other station that is as encouraging and up-lifting as K-LOVE. If I didn't believe this station affects me, my family and the community we live in, I wouldn't be taking the time to write to you. We live in a small town that has only one local radio station which plays older country music. We hear K-LOVE from an FM translator out of a nearby city and it is the only Christian music station that we receive that we can hear clearly, plus it has no commercials!! K-LOVE has been around for many years thanks to its many thousands of financial supporting listeners, which only proves that people like us are willing to pay just to keep our station!! We live in a city with a population of just 9,000, and I promise I could send you a list of hundreds of people whose lives have been changed by listening to K-LOVE. Please don't take our K-LOVE station away!!!!
